

VOLUME LIII.

JANESVILLE, WISCONSIN, MONDAY, MARCH 22, 1909.

## STILL SEARCH FOR THE CHILD

Parents Have Received Word That The Boy  
Is Safe, And Will Be Returned.

## NEW PLANS FOR THE REWARD MADE

Letter From Kidnappers To Mr. And Mrs. Whittle Give  
Assurances That They Again See Missing  
Child Within Forty-Eight Hours.

BY ASSOCIATED PRESS.  
Sharon, Pa., March 22.—It was reported at eleven this morning that the Whittle family had received assurances that within forty-eight hours their missing eight year old boy would be returned to them if the plan for the ransom were carried out.

Absolutely Secret.

The family are keeping absolutely secret the plans for the payment of the sum demanded by the kidnappers so that there will be no mistake as occurred when the note was turned over to the police and the money deposited as directed was not touched.

Detectives at Work.

The best detectives in the country have been employed on the case and it is thought now that had not the local police of Ashtabula, Ohio, interfered in the case the child and his abductors would not be found and the boy returned unharmed to his parents.

No Clue.

The clue which came from Akron, Ohio, relative to a child being seen

## JURY DISAGREES IN CASE AGAINST COIL

Failed to Bring in Verdict After Six  
Hours' Deliberation.—Retrial  
Set for March 29.

[SPECIAL TO THE GAZETTE.]

Beloit, Wis., March 22.—The jury in the case of the State vs. LaCount Coil, who is charged with having indecent liberties with the person of a female under fourteen years of age, disagreed Saturday night at ten o'clock, after being out since 3:45 in the afternoon. The case was set for further proceedings on March 29.

Raymond E. Demrow, aged 23, died at the Beloit hospital last night after a three week's illness with typhoid fever. He is the son of Fred Demrow, who formerly lived one mile south of Janesville. He is survived by a wife, his parents, and one brother and one sister. The funeral will be held Wednesday afternoon at the home.

Mrs. Ella Coughlin, aged 86, died last evening, her demise being caused by old age. She was one of Rock county's early pioneers, coming here from Vermont in 1827. She is survived by one daughter and two sons. The funeral will be held tomorrow morning.

Mrs. Martha L. Eldred, wife of L. G. Eldred, cashier of the Second National bank, died yesterday morning after a long illness.

## HOBOS MADE USE OF BOARDING CARS

Chippewa Falls Police Find Eight in  
"Winter Quarters" in Cars of  
Railroad Company.

[SPECIAL TO THE GAZETTE.]

Chippewa Falls, Wis., March 22.—Chief of Police Wands and Officer Peppi went to the Omaha gravel pit and rounded up a bunch of eight hobos, who were using the boarding cars of the Omaha line as winter quarters. The officers found a thrifty bunch of "wheenies." They had a stock of provisions on hand including fifteen pounds of fresh meat.

This gang has been bothering South side residents by beggling and some petty thefts have been laid to them. The fellows had a good supply of coal that they had secured somewhere, possibly in the railroad yards.

Six of the hobos were escorted to the city limits and ordered away. Two were so intoxicated they did not know enough to go, so were brought to the city and landed in the lock-up. The officers are watching the boarding cars to see that they do not return.

## BICYCLE MAN SAYS SHERIFF STRUCK HIM

Charges of Dealer Arouses Political  
Circle of Manitowoc—Political  
Fight Said to Be Cause.

[SPECIAL TO THE GAZETTE.]

Manitowoc, March 22.—Political clerks of the town are stirred up over sensational charges made by Charles Schumacher, a bicycle dealer of the city, who alleges that he was assaulted by Sheriff Joseph Willinger and who has consulted attorneys and says he will prosecute the officer even to the extent of an attempt to oust him from office. Schumacher claims that in dispute over a small fee bill of \$2.70, the sheriff struck him in the face. Willinger is a democrat and the first of his party to be elected sheriff in the county in ten years. There is said to be some politeness behind the fight to be made upon him.

GAVE TALK ON EDUCATION  
TO HIGH SCHOOL STUDENTS

Dr. Carrier of Carroll College, Spoke  
At Opening Exercises This  
Morning.

This morning at the opening exercises of the high school, the students had the pleasure of hearing Dr. Carrier, of Carroll College of Waukesha, speak. Dr. Carrier is an excellent speaker and his talk was especially enjoyable from his familiarity with his subject. The topic of this morning's address was "Education." He afterward spoke to the members of the senior class on "Higher Education," a fine exposition of the advantages of college instruction and its value to those who took the courses.

Uncle Sam—Good-bye, and take care of yourself, Theodore.

## EIGHT CHINKS SEEK TO ESCAPE DEATH

Were Convicted of Murder After Bos-  
ton Tong Warfare Last August  
—Cases Before Supreme  
Court.

[SPECIAL TO THE GAZETTE.]

Boston, Mass., March 22.—The full bench of the Massachusetts supreme court today heard arguments on the exceptions in the cases of the eight Chinamen who a year ago were convicted of murder in the first degree as a result of a bloody combat between the rival tongs in Boston's Chinatown. If the court refuses to grant a new trial the convicted Chinamen will be put to death by electricity in the prison at Charlestown.

The tong-warfare occurred a year ago last August and furnished one of the most exciting events in the history of Chinese quarrels in America. Without warning, four Chinamen who were sitting on their doorsteps, were shot down while trying to cool themselves in the feverish heat of a sultry evening. Six other Chinese were wounded.

Ten strange Chinamen entered Oxford Place, where the murders occurred, and scattered into groups of two and three. One stood at the head of the street and litigated a bunch of firecrackers. That was the signal to fire, and instantly shots rang out.

There were seven and grants of wounded and dying. As soon as their work was accomplished the murderers sought to make good their escape from the city. Two were arrested before they had time to flee and the others were captured on trains and electric cars before they had gotten far from Boston. The most of them were identified as belonging in New York and had evidently been hired to do the assassinations. The leader of the band, however, was a Boston Chinaman, Harry Charlie, who for years had acted as interpreter in the local courts and who was reputed to have amassed a large fortune as the owner of a chain of American laundries.

Ten Chinamen in all were arrested.

One of them was taken ill and died during the trial and another committed suicide in his cell. The other eight were convicted, being the largest number of convictions in a capital case involving Chinamen in this country.

Family Chased by Pet

Becoming suddenly afflicted with rabies after an illness of several days, a pet dog belonging to C. E. Holway chased the family from the house and was finally killed by police after it had demolished curtains, draperies and chinaware.

Nine-year Sentence

A. Lincoln Price of Viroqua was sentenced to Waupun for nine years after pleading guilty to the charge of income with his 18-year-old daughter. Price is 54 years old. His wife died when his two daughters were babies.

Family Chased by Pet

Becoming suddenly afflicted with rabies after an illness of several days, a pet dog belonging to C. E. Holway chased the family from the house and was finally killed by police after it had demolished curtains, draperies and chinaware.

DETROIT YOUTH ON  
TRIAL FOR MURDER

Frank Blaik is accused of killing  
Sixty Year Old Polish Woman  
in a Drinking Bout.

[SPECIAL TO THE GAZETTE.]

Detroit, Mich., March 22.—The case of Frank Blaik, charged with the murder of Mrs. Frances Richards-Sikora, was called for trial before Judge Phelan in the municipal court today. The killing of the woman occurred several weeks ago and is said to have been the result of a drinking bout.

The woman was found by neighbors several hours after she had been hacked to death. She was past sixty years old while her alleged murderer is little more than a youth. Both lived in the Polish colony and bore unsavory reputations.

MAN ARRESTED IS  
WELL KNOWN HERE

Was Tried Here a Year Ago for Slim-  
mer Charge—Escaped  
with Fine.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., March 22.—E. H. Bower, former proprietor of the College Inn, was placed on trial here today for a statutory offense. Bower was married in Pennsylvania in 1905. He was divorced. Bower then married Clara Schmidt of Milwaukee, by whom he has a child. This marriage is illegal in Wisconsin on account of a statute preventing the marriage of a divorced person within a year after the granting of a divorce, the Schmidt woman having married Bower a week after she got a divorce from Arthur Frederick of Milwaukee. Bower's third matrimonial contract was with Myrtle Eaton of Madison last spring. She claims Bower as a husband. The Schmidt woman gave sensational testimony against Bower today.

NEW YORK'S GREAT  
BILLIARD TOURNEY

Seven of the Greatest Cue-Wielders in  
the World Will Compete for  
Championship.

[SPECIAL TO THE GAZETTE.]

New York, March 22.—Billiard admirers will turn their attention to the world's championship tournament at 182 ball line, which begins tonight in the Madison Square Garden concert hall. Seven of the greatest cue-wielders will compete. The list includes Louis Chirio of Paris, George Sutton of Chicago, George Blasius of New York, Albert G. Cutler of Boston, Ora Meridunar of New York, Calvyn W. Denner of Chicago, and H. B. Cline of Philadelphia. The contest is for a trophy emblematic of the championship and \$3,000 in prize money. The games are to consist of 400 points up. The winner of the competition will be required to defend the same, subject to the rules heretofore governing the 182 ball line championship.

LATONIA TRACK CAN BE  
OPERATED AGAIN AS USUAL

[BY ASSOCIATED PRESS.]

Covington, Ky., March 22.—County Judge Barbour today decided the Kentucky racing commission law as unconstitutional. The effect of the decision is to place the Latonia racing track back to its former bids.

In County Court: There was a hearing in county court this afternoon of an action brought by Architect Irving F. Hand of Beloit against the Smith estate, Dr. C. W. Merriman, Secretary and Aliege A. G. Huebner, both of the town and half a dozen others were witnesses.

Marriage License: Application for a marriage license was filed at the court house today by Gustav A. Fleder and Alice A. G. Huebner, both of the town.

## SEES A WAY FOR STARTING SUITS

STATE TREASURER BELIEVES HE  
CAN RECOVER BACK FEES.

## WOMAN'S SUFFRAGE UP

Legislature to be Invaded by Advo-  
cates of "Equal Doctrine During  
Present Week.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., March 22.—State Treasurer A. H. Dahl believes he has discovered a law that will permit the prosecution of former insurance commissioner William A. Fricke of Waukesha for fees alleged to be retained by him while acting for the state. Some time ago it was ascertained that no actions could be maintained after ten years. As Emil Gilohan of Milwaukee was serving as insurance commissioner ten years ago Attorney General Gilbert last week started a suit against him to ascertain if the fees in reality belong to the state. Since that time Mr. Dahl has discovered a law which in effect says that the statute of limitations does not run against a person residing outside the state.

As Fricke lived in New York for a number of years after serving the state as insurance commissioner that the state treasurer believes the attorney general should start a suit against Fricke to determine if the fees cannot be collected by the state that were paid to him during his administration.

Woman's Suffrage.

Woman's suffrage will be given a hearing by a legislative committee this week. Senator Stout has introduced a resolution to amend the constitution so that women may be permitted to vote as men at all elections.

A similar resolution was introduced in the assembly by J. H. Kampf of Racine. A hearing has been noted on these resolutions on Wednesday and it is expected that a large delegation of women's suffragists of Wisconsin will appear in favor of its passage.

Roy, Olympia Brown of Racine, president of the woman's suffrage league of Wisconsin, is expected to be present at the hearing as are a number of women from Milwaukee, Janesville, Brookfield and Madison.

There is some talk of a ten day recess at Easter time. Some of the leaders of the house held a conference on this matter. Late this week a resolution will be presented suggesting a vacation so as to include the time from spring election, April 6, until after Easter Sunday, April 11. This resolution will be referred to the steering committee. There will be considerable opposition to such a plan as some of the members are anxious to conclude the session of the legislature by May 7, and a ten day Easter recess might delay such a chance.

To Reopen Law.

The senate judiciary committee has introduced a bill to repeal a law passed in 1905 that authorizes the state tax commission upon a complaint a hearing to order a re-assessment of all the taxable property in an assessment district, when the commission is satisfied that the local assessment is not in compliance with the law.

Although the state tax commission

report discloses that for the short period of 1906, during which the law was enforced, great benefits were attained, some of the members of the commission are in favor of the repeal of the law.

After the measure was in force the

death rate increased from 175 to 223 pages more than that of the average day in court. The work was not finished until 11 o'clock Saturday morning. Under the contract entered into with the state, Mr. Smith is obliged to have ten copies of each day's proceedings on the desks of the committee members when the session opens the next morning.

In the present the sessions have continued for twenty-four days. The reports have averaged from 175 to 223 pages. Three hundred words per page is a fair average, making a total of approximately 1,212,000 words taken so far. Dictating into the phonograph, the reporters are able to attain a speed of 250 words a minute. The typewriter operators begin at 6 o'clock in the morning and are fortunate able to finish at midnight.

Health Report.

Comparing the mortality reports for the months October, November and December, 1908, with a similar period for 1907, the state board of health finds there was an increase of 88 deaths from tuberculosis, a decrease of 19 from typhoid fever, an increase of 38 from diphtheria, a decrease of one from scarlet fever, an increase of six from measles, an increase of five from whooping cough, a decrease of 56 from pneumonia, an increase of 44 from cancer and a decrease of 48 from violence.

During the months of October, November and December, 1908, 6,336 deaths were reported to the state office. This corresponds to an annual death rate of 10.9 per thousand estimated population.

During the same three months of 1907 6,053 deaths were reported.

In the bulletin of the board of health the increase of 233 deaths for the period is attributed to increased "accuracy in reports".

By dictating the state into three sections the report of the board estimates the death rate in the northern section of the state at 9.2 per thousand; the rate for the central section at 10.8 per thousand and the rate for the southern section at 11.2 per thousand.

"The ratio shown in the northern and central counties as compared with the rate in the southern counties is indicative, we believe, of the comparative healthfulness of the various sections," says the report.

"It is to be expected that the death rate from communicable diseases should be higher in regions where the density of population is greatest."

Of the 6,336 deaths for which the report is available, 51 resulted from suicide,

26 from drowning, 54 from railroad accidents, 13 from street car accidents,

29 from burns, 4 from homestead, 7 from explosions, 3 from falls, 2 from cyclones, 1 from freezing, one killed by an automobile, one from lightning and one from a corn shredder," declares the report.

"Classifying the deaths by age groups we find that 61 resulted from

infantile disease, 10 from drowning, 10 from

suicide, 10 from homicide, 10 from

accidents, 10 from burns, 10 from

homestead, 10 from explosions, 10 from

falls, 10 from cyclones, 10 from

lightning, 10 from freezing, 10 from

shredding, 10 from drowning, 10 from

suicide, 10 from homicide, 10 from

accidents, 10 from burns, 10 from

homestead, 10 from explosions, 10 from

falls, 10 from cyclones, 10 from

lightning, 10 from freezing, 10 from

## UTOPIA THROUGH A UNION SPIRIT

ORGANIZATIONS TO BRING ABOUT  
MORAL UPLIFT.

### OSBORN GAVE ADDRESS

Meeting at Y. M. C. A. In Charge of  
Federated Trade Unions of  
Janesville.

"The advance of civilization in the United States is due mainly to organization," and "the founders of trade unions were fanatics," were two somewhat startling statements made by J. C. Osborn in the course of an address made at the Y. M. C. A. yesterday afternoon on "The Moral Value of the Union Spirit," before a meeting in charge of the Federated Labor Union of Janesville.

Mr. Osborn's statement in regard to the work of organizations was not restricted to labor organizations alone but referred also to charitable, religious and fraternal societies. At the head of these organizations in point of influence no place, the church, but the church does not reach all kinds and conditions of men, so the work is supplemented by the Y. M. C. A. This in turn is aided by the trade and fraternal societies and the Salvation Army. The point made throughout the address was that if these different organizations, reaching as they do every walk of life, were to co-operate in raising the moral standard of the nation, the millennium would not be so far away. The good that can be accomplished increases in direct ratio to the number of the organizations.

In the course of his remarks on the advance of the trade unions, Mr. Osborn, who has been a union man for over thirty-seven years, stated that he is ashamed of the motives that actuated the first union he belonged to. Its motives were supremely selfish; and aimed simply to raise the wages and shorten the hours of its members. Since that time, a more liberal feeling has been at work. The unions have inserted in their constitutions rules for moral conduct, and quoting from the articles of the carpenter's union, he gave the rule of conduct that every member binds himself to observe with all women, and the rule that forbids any member to interest himself in the sale of intoxicating liquors.

"There has never been any trouble between capital and labor," said Mr. Osborn. In the course of his observations on that much discussed question, "Capital is simply reserved labor. The trouble arises not between capital and labor, but between the unfair holders of large amounts of capital and labor. In this context between malefactors of great wealth and organized labor, the unions do not ask financial aid, but only ask that the public give them moral support after having studied the question. It is the firm belief that this moral support would come if the public would only study out the points now in dispute."

"On of the questions that the unions are fighting their hardest against, is that of child labor. Another is the sweat shop. It is doubtful if one million out of the eighty millions of people in the United States have a clear idea of what is meant when sweat shops are mentioned. They have no idea of the grinding toll; the unhealthful and cramped quarters and the low wages of the sweat shop worker. Nor do they realize that many cases of contagious disease whose presence in a community cannot be explained, can be attributed to the clothes made in unhealthful sweat shops. The remedy advocated for this, mentioned without any idea of advertising, is to see that every garment has the union label. The reason for this is, that the trade unions as a part of their policy, refuse to allow their members to work in any factory where there is not a certain amount of light and working space. This effectively eliminates the garments made in crowded and unhealthful tenements. In addition to this work in safeguarding the public health, the labor unions have other duties: to provide better living conditions for workers, take care of the sick, bury the dead, and to comfort the widow and orphans.

"No question raised by the statement of Mrs. Roosevelt, that any woman can dress on \$300 a year, does not appear to me as a question of economics, but rather one of extravagance. Many women not only dress on that amount, but feed and clothe a large family of children, besides paying the house rent and every expense that may arise." This matter was brought in to show that the man or woman of millions has not the experience to solve the problems of the poor class.

"A few years ago, if a man was known to belong to a union or any other organization, he was pointed out as a curio. It is different now. At the present time, if a young man does not belong to at least one society he is in the same position and everyone asks him why he is not an active member of some sort of an organization. Many times he answers that he does not like the way it is run. This answer should be the determining reason for his joining. If he dislikes the manner in which any organization goes about its work, he should join and try and change its policies. If he can influence others to do the same thing, so much the better. In nine cases out of ten, he will see much further into the reasons that influence the policies of the organization, the difficulties that prevent its carrying out the projects that he advocates, than before he joined. It may be that the small sum, that he paid in as a membership fee will be the means of launching one of his pot plants."

After giving this opinion in regard to the best way for outsiders to change and improve the work of different organizations, and expressing the hope that the different churches would make it more of a practice to take up the material interests of their members, that is, the practical religion of everyday life, Mr. Osborn went on to discuss the attacks made at the labor organizations.

At a labor day parade in Chicago, he heard the remark: "Whore is their red flag of anarchy?" That sort of a remark shows that the speaker has resorted to abuse for the reason that he has no good argument to give. The members of the labor organizations regard remarks of this nature in the same light that the Englishman of the following story regarded

the beatings he received from his wife. He was a huge brawling giant and she a little weakened wisp of a woman. It was her custom to beat him heartily with a switch at the slightest provocation. When asked why he did not resent the beatings, the Englishman answered that it did not hurt him and is amazed how so what was the difference?

"We have been accused of being destructionists," said Mr. Osborn. "Well, we plead guilty to that charge. We are destructionists, in that we would destroy every shack, in the country that is not fit for a man to live in. But we would also give him one that would be habitable." After explaining his position on this charge the speaker went on to say that if the entire product of the workingman's toll were turned over to the workmen the youth of the country would be doubled inside of twenty years. But the unions are not asking for the entire product of the toll; all they demand is a fair share. They do not ask for vengeance, simply for justice. And the fight will go on until justice is given. It took the foundry seven hundred years to gain one day of rest a week, but he got it at least after a fight that makes the present day contest look like boy's play in comparison. The fight for the betterment of the world will go on, and it will be the organizations of the people that will finally carry it to a successful finish.

Another objection to the organizations in general and the labor unions in particular, is that they contain bad men. That may be true, as it is true everywhere. There was a bad angel in heaven before the fall. But it is absurd to think that a single bad man will bring the thirty or whatever the number of members the society has, to his level. Rather will they bring him higher and make a better man and citizen of him.

When disputes arise between the employee and the employer, the statement is often made that the employer will deal with his workman, not as a member of a union, but as an individual. But at the same time he, the manufacturer, will belong to a manufacturers' association. Why the distinction? They will also say that they are able to run their own business. It is generally admitted that the workman has a business also, that of raising and supporting a family. If then, the way the manufacturer runs his business interferes with the employee's business, who will have to give way? Generally, but not rightfully, the workman is obliged to step aside. How, then, are they to get justice? The answer is plain; they must unite. One man alone is useless, but take a thousand acting as one for a common purpose, something will be accomplished.

The labor unions have done much, but if all organizations will get together; religious, fraternal—every organization to which the people belong, and work together for the uplifting of man, there is practically no end to what they can accomplish.

Other speakers, including Secretary Kline, followed Mr. Osborn's talk with short addresses, in which they heartily seconded his opinions, agreeing with him that all that is needed to secure the co-operation of all organizations in the uplifting of mankind is an understanding of the real purposes that each society stands for and an honest desire to refute the old question, "Am I my brother's keeper?"

### WALTON PYRE GAVE SPLENDID RECITAL

At Myers Theatre Last Evening—Collection Was Taken up for  
Fruit and Flower Fund

About two hundred people attended the dramatic recital given by Walton Pyre, assisted by Walter S. Dryburgh, pianist, at the Myers theatre last evening. No admission was charged at the door but a collection was taken up by the usher, just before the close of the entertainment, for the benefit of the Fruit and Flower fund.

The exact dimensions of this collection could not be learned this morning as Mr. Myers had taken an early morning train for Milwaukee, but it is known that the contributions ranged from a dollar down. The Fruit & Flower association expects to devote the proceeds to the purchase of orchard and greenhouse seedlings for the hospital patients and other good works, and inasmuch as the recital was not given for gain and hence did not constitute a violation of the Sunday amusement ordinance, it is not likely that the Janesville Ministers' association or the authorities will interfere with any serious objection.

Many of those in the audience last night came direct from the church services.

Mr. Pyre's reading from Longfellow's "King Robert of Sicily" to the splendid musical accompaniment of Mr. Dryburgh, was the most notable offering of the program. The proud king in his arrogant prouding to rebuke the priests for singing the Magnificat—"He hath put down the mighty from their seats"; the superior tones of the great hymn; the king's terror and anger and blasphemy when he found himself locked in the church; and the dramatic moments of his humiliation and final penitence were superbly realized by the gifted reader. His impersonations of the various characters were so perfect that no change in voice or posture ever, even momentarily, diverted attention from the character he was presenting to the reader, himself. His excellent mastery of the French-Canadian dialect was evidenced in a reading of Drummond's homely, pathetic little poem of "Vieuxtemps"—"The Olden Time."

In David Harum's "Sunday Horse Trade" was just the slightest hint of a lesson for narrow-minded people if one chose to interpret it that way. This and "The Littlest Girl" were both artistically presented and thoroughly appreciated by the listeners. Mr. Dryburgh's piano solo proved him to be a musician of high ability and he responded to several encores.

**Subtle Distinction.**

**Fragrance for Sick Room.**  
A delightful fragrance that is not oppressive can be given a sick room by putting a little cologne in a saucer and setting fire to it.

### ARE TO PROTECT LOCAL INTERESTS

ROCK COUNTY WILL HAVE OF-  
FICIAL LOBBY AT MADISON.

### WATCH ALL UNFAIR BILLS

Particularly Will Seek to Defeat the  
Proposed Highway Measure

When the proposed highway measure comes up in committee for consideration, Rock county's interests are to be looked after by the special lobby committee of the county board, appointed for this purpose at their last session. While the committee has not yet been named, among the registered lobbyists, L. E. Gottle of Edgerton, F. F. Livermore of Beloit, and S. Jones of Clinton will be on hand.

This is one of the most objectionable bills in the minds of the special lobby committee, but other measures will be watched carefully to see that Rock county's interests are safeguarded in every measure possible.

The bill which will be the special object of their attack is a measure providing for the establishment of a state highway department, for the construction of public wagon roads and for making appropriations therefor.

It places the road building in the hands of the state, with authority centered among the heads of the engineering and agricultural colleges of the University of Wisconsin. A superintendent of highways, to be known as the "county engineer," must be hired by each county desiring road work done under this act, while this engineer receives his office after a competitive examination before the electors of the commission. However, his appointment is subject to the approval of the county and state boards.

To a certain extent, it places the county board under the control of the highway commission. The bill was introduced Feb. 10 and referred to the committee on public roads and bridges, who have returned a favorable report.

Although the features named have some objections to many of the county boards, the more objectionable seem to be the provisions regarding the annual levy and the manner of distribution among the counties. An annual levy of \$300,000 is provided for in the bill. Under the bill the state proposes to pay one-third, the county one third and the township one-third of the cost of the highways, but the cities and villages will receive no benefits.

According to the assessment valuation of last year, the property valuation of Rock county is \$73,057,802, which means that of the \$300,000 levy this county will have to pay \$8,828. However, the cities and villages of Rock county must pay one-half of this sum, or \$4,444, and still receive no benefit. But in addition to this, the cities will have to pay one-half of the city tax levy, amounting to \$2,850. Thus the total assessment of the cities will be \$7,323, but the benefits would be very meager.

This levy is distributed among the counties of the state according to three propositions: one-third equally, one-third according to real estate valuation, and one-third upon the basis of area.

According to this allotment, Rock county would receive under the most favorable conditions only \$5,719. This appears to be an unjust feature in the bill, for in comparing these figures with those of Forest county, in the northern part of the state, the result is decidedly different. Under the state tax levy, it would pay in \$939, but would draw out, on the same basis as Rock county, \$4,459, or \$3,520 more than it paid in, while Rock county receives in return about \$3,200 less than it has taxed.

Under the present system, Rock county paid out last year \$12,775 and while under the proposed arrangement this county would pay out practically the same total for the improvement of roads, the objectionable feature is found that the cities would have to ridge about one-third of the total assessment, and thereby increase their burden almost double, while there is no increase in benefits. In fact, the purpose of the new bill is largely to improve only the country roads.

Another feature which was mentioned by one of the lobbying committee of this county is that these "county engineers" are to be paid not less than \$1,000 per year, and in order to have any improvements made and to secure appropriations under the new act each county would be compelled

to employ an engineer. This means that seventy-one engineers would be necessary each year.

Mainly because this bill seems to be unfair to some of the counties of the state, the lobbying committee of this county will use every endeavor to kill it. Just when they will begin their work is not known at present, but their plans in this respect will be formulated at the next meeting.

### Link and Pin

Chicago and North-Western

Engines John Coen went to Thruway Saturday night on 504 for passenger service.

Engineer Starritt and Fireman Hackshaw were on the switch-engine yesterday in place of Talmadge and Lewis, who were laying off.

Engineer F. W. Blair and Fireman R. K. Smith went south on an extra yesterday on account of pool crews racing.

Fireman Walters laid F. W. Blair's place on 588 this morning.

Engineer J. W. Coon took the seven o'clock switch-engine this morning.

Engineer Schoenborg is on the extra board.

Engineer Tucker took the wrecking outfit to Shepperton yesterday with 1231 to replace some derailed freight cars.

Bob Lee is in Fulton for a few days.

Peter Itsmussen has quit his job in the roundhouse.

John Murphy is back from Milwaukee.

Bulletin 151 has been rescinded and hereafter freight trains from Belvidere to South Janesville on the Madison Division will use the south passing track to get around their train and then pull it to the South Janesville yards. Trains from South Janesville to Belvidere will be pulled from the new yards downtown by the switch-engine.

John Clough and Horn laid off last night.

Fireman Garry laid off the switch-engine yesterday.

Travelling Agent A. L. Fisher of the Madison Division is here today.

Chicago, Milwaukee and St. Paul

Considerable dissatisfaction is being expressed by engineers with regard to the system of sending out extras on Sunday. Under the present system trains are ordered out at an hour that most effectively spoils the day for the crews. It is hoped that along with the recently expressed intention of the road to cut down all except the necessary work on Sunday, the time of the extras will also be attended to.

Engineer Mead is taking the place of James on the switch-engine.

Switchman Murphy is laying off. Charles Kruse has his place.

Engineer Schleicher and Fireman Harter took out 91 again this morning.

Engine 4010 took trains 20 and 21 yesterday.

Engines 842 and 845 are in the house again for repairs.

Murdered Rancher's Body Found.

Pueblo, Colo., Mar. 22.—The remains of Peter Dieter, a young rancher of Dawson's Grove, Ill., who was murdered in his mountain ranch house near here several weeks ago, was found buried under a straw stack yesterday by ranchers. Two bullet holes were found in the body.

Illinois Rector to North Carolina.

Bloomington, Ill., Mar. 22.—Rev. J. A. Areson, for five years rector of St. Matthew's Episcopal church here, has been appointed archdeacon for North Carolina.

Laconic and True.

"How's your hair?" asked one partly-hairless gentleman of another. "It's going some," was the answer.

## THE SPRING STYLES

this season show greater differences than usual. Out of the mass of sensational and inferior designs only a comparatively small number will have the approval of those women whose good taste and judgment finally decide all "fashions." The present variety of new, original and exclusive models shown here, already have the sanction and admiration of those whose opinions count the most. Remember that LEATHER QUALITY, HONEST PUTTING TOGETHER and ARTISTIC FINISHING are fully as important as style. These points keep our footwear ahead of all other shoes in constantly widening popularity.

**FOR WOMEN**

**ANKLETTES**

This model of taste and fashion has already won its way into the hearts of all women. It includes all shades, also in shiny leathers. \$2.50. \$3. \$3.50

**NEW TOURIST**

The very plump of fashion. Full of foot comfort. In tan and shiny leathers. \$2.50. \$3. \$3.50

**BLACKBERRY**

A handsome effect for the spring, extra high arch and crost instep. One of the sure favorite. All patent. \$3.00

**BUCKLE-PUMP**

A real fashionable novelty. One of the classiest of the late spring styles, in extra high grade patent, and colored leathers. A leader at \$3.50

**Style booklets mailed on request.**

**J.M. BOSTWICK & SONS.**

### Things That Are Selling

Motor cloth suiting is well liked and appeals to women on account of its great wearing qualities. Although made of cotton it has a hard linen finish, is of excellent weight and launders well. It comes in a large variety of stripes, blue, tan, gray, brown in two and three tone effects. Nothing better for outing suits, waists, skirts, boys' suits, etc. Will not shrink. 34 inches wide, price 20¢. We also show a line of solid colors to compare with the stripes, 34 inches wide,

## ROOSEVELT ON THE STEAMSHIP

### GAVE A PARTY IN HONOR OF BIRTHDAY

Visits Vessel on Which He Sails To-Morrow.

### SEES BAGGAGE STOWED AWAY

Former President Joyous on Eve of Departure for Africa—Will Make No Speech to Crowd at Pier and Rejects Gifts.

New York, Mar. 22.—Former President Roosevelt's baggage was stowed away in the steamship Hamburg on which he sails to-morrow for his hunt in Africa. Mr. Roosevelt came into the city and went aboard the ship. He inspected the quarters his party is to occupy and saw that his rifles, ammunition and other things were properly put away.

The former president was as happy as a boy with a new pair of red-top boots. He was in extra good humor and laughed and chatted with officers of the boat who assured their distinguished passenger that they would see that everything was done for the comfort of himself and the other members of his party, including his son, Kermit.

**Subject of Special Prayer.**

Rev. Henry Washburn, rector of Christ church at Oyster Bay, yesterday incorporated a special prayer for Mr. Roosevelt's safe return in the regular prayer. The prayer follows:

" Almighty God, we beseech thee to watch over him who recently returned to us and is about to depart for foreign shores and to bestow thy safe and protective care upon one who is wont to worship in this place. We pray thee that he may return to us again in safety and sanctified by thy holy spirit."

Mr. Roosevelt, when shown a dispatch stating that a gentleman from the west would join the expedition here as an additional member, said: "I don't know anything about it. If anyone else is going I don't know. If they try, I think there will be some way to stop them."

"There is a story that a man went to Texas with a .33-caliber revolver and a cowboy said to the newcomer: 'Stranger, if you shoot me with that thing and I find it out, I'll kick you out of Texas.' Well, if I find anyone trying to follow me, I may think of the cowboy story."

Will Not Discuss Trip.

While in a jovial mood regarding his trip, Mr. Roosevelt laughingly refrained from talking about it to visitors to Sagamore Hill, and to the correspondents who called on him he said:

"I want to say now that I do not intend to make and will not make any statement regarding my African trip or on any other subject here, at Naples, or Mombasa, so that any appearing as coming from me will be false on its face."

Mr. Roosevelt seemed surprised when informed that several delegations from civic and political organizations from various parts of the country would be at the dock to-morrow and that several thousand people undoubtedly would be on hand to give him a parting cheer as the steamship goes out.

"Graceful me," said Mr. Roosevelt, "you don't really mean to say there will be such a crowd as that. Are all those people coming?" The French ambassador, M. Jusserand, wrote me that he would see me at the dock. If a big crowd is coming I will write the company to see that he has no trouble in getting through the crowd.

Will Make No Speech.

"I will leave here early to-morrow and may go by the tube to Hoboken from New York, which of course depends upon the weather. There will be no speeches or statements from me at the steamer."

The intelligence that many packages from an assortment of pills to cure all the ills that flesh is heir to in the jungle, to ammunition and guns, caused Mr. Roosevelt to exclaim:

"I might say now that I have engaged all my equipment and I won't take them. I won't even look at them. It's no use to send those things to me."

Mr. Roosevelt said he was a private citizen and as such he was entitled to a private citizen's rights and would decline to make any statements on American political affairs.

The members of the Roosevelt family at the roundabout yesterday, besides Mr. Roosevelt and his wife, were Mrs. Nicholas Longworth, Ethel Roosevelt, Theodore Roosevelt, Jr., Archie, Kermit and Quentin Roosevelt.

**Indiana Man Poison Victim.**

Cincinnati, Mar. 22.—W. H. McAllister, a coal merchant of Madison, Ind., died last night at the City hospital from morphine poisoning. In the room McAllister occupied was found a large envelope addressed to Mrs. W. H. McAllister, Madison, Ind. The envelope appeared to contain a document of some kind.

**Organist Drops Dead in Church.**

St. Louis, Mar. 22.—Mrs. Georgia Wheeler, organist at the Gibson Heights Presbyterian church, dropped dead yesterday as she entered the organ loft to play the first hymn of the morning services. The congregation was dismissed.

**Alleged Bank Sneaks Arrested.**

Cincinnati, Mar. 22.—George Willard and George Carson, said to be notorious bank sneaks and pickpockets, were arrested here Saturday night.

**Wise Words.**

Colton: Next to acquiring good friends, the best acquisition is that of good books.

**SPECIAL TO THE GAZETTE.**

Koshkonong, March 22.—Ethel Vogel entertained eleven of her little friends Saturday afternoon to help celebrate her sixth birthday. A nice supper of good things that children like best was served by Mrs. Vogel, assisted by Mrs. Barnette Brown. Those present were Charlotte and Frieda Hubson, Francis Dickenson, Elizabeth Brown, Ruth Latzko, Mabel Vogel, Kenneth Brown, Arthur Traynor, Dorsey Dickenson, Maynard Brown, and Theodore Dickenson.

On Friday evening, March 19, Mrs. Joe Krause invited a few of the neighbors to renew her husband's fifty-second birthday. Those present were Mr. and Mrs. Scott Robinson, Mr. and Mrs. Goo, Barnhart, Mr. and Mrs. W.H. Miller, Mr. and Mrs. Davis Brown, Mr. and Mrs. P. Traynor, and Mr. and Mrs. L. Young, the Masons Matto and Carrie Young, Catherine Powell and Mr. Frank Lyons.

John Dierck unloaded a car of lumber at this place last week.

Mrs. Belle Ostrander left for Iowa last Thursday.

Mrs. Lizzie Clement of Sumner visited her sister, Mrs. H. Reuterskiold last week.

James Buchanan and Dick McNeil of Janesville spent Saturday at last week at the McNeil cottage at the lake.

Charles Shuman returned Monday evening from a two weeks' visit with relatives at New London, Winona, Winona and Fond du Lac.

No preaching services were held at the Otter Creek church Sunday.

### NARROW ESCAPE FOR MISS BEULAH CLARK

Bullet Accidentally Discharged from Gun Went Through Abdomen of Edgerton Girl.

**SPECIAL TO THE GAZETTE.**

Edgerton, March 22.—What might have proven a much more serious accident occurred at the Samuel Clarke farm about six miles north of here Saturday afternoon. Mr. Clarke was nearly ready to start for town when a flock of wild geese was discovered feeding nearby. The son rushed into the house, got a rifle and brought it out to his father. At the same time Bushie, a fourteen-year-old daughter, came out with a basket of eggs and after placing them in the buggy stood watching her father load the gun which suddenly discharged, sending the bullet through the upper part of the girl's abdomen. Dr. Morrison was at a neighbor's about a mile away and came as soon as possible. The girl has not seemed to suffer much pain since and has rested easily, so her recovery is looked forward to hopefully.

Geo. Emerick died at the home of his daughter, Mrs. Thos. Marsden, near Husseyville, Sunday morning.

Sometime ago Mr. Emerick had a stroke of paralysis and lately has been a sufferer from cancer of the stomach until his death. He was 78 years of age and leaves a wife, two sons—George of Ft. Atkinson and John of town—and the daughter above mentioned. A brother and a sister are also living, both of whom reside at a distance.

A forty-foot cabin launch passed through here Sunday, bound for one of the lakes near Madison.

Miss Anna Schmidley of Janesville was a guest of Miss Florence Child Sunday.

R. P. Hutton of the Anti-Saloon League addressed the congregation at the M. E. church Sunday morning and in the evening union services were held at the Congregational church.

Miss Ida Doty spent Sunday with her friend, Miss Crandall, at Milton.

Miss Minnie Craft of Janesville was the Sunday guest of her sister, Mrs. A. H. Clarke.

Mr. and Mrs. J. W. Conn entertained Mr. and Mrs. Henry Tull of Janesville over Sunday.

**HANOVER.**

Hanover, March 22.—The examination of the Cathocephalous class will be held next Sunday morning at ten o'clock. The following Sunday, April 4th, at 10 a.m., the confirmation will take place and on this Sunday Rev. Puhl will preach a farewell sermon to the class.

After the regular morning service on Good Friday the preparatory service will be held for the class.

On Easter Sunday the service will be held in the morning at ten o'clock and immediately after the service the preparatory service will be held followed by the communion. Everyone is very cordially invited to all services.

**CENTER.**

Center, March 22.—No service will be held next Sunday on account of the examination of the confirmation class at Hanover and no service on Palm Sunday and Good Friday. The Center congregation is very cordially invited to all the services at Hanover.

Easter service will be held at 2:30 p.m. April 11. The Sunday after Easter the service will again be held at 10 a.m. After the communion the service will be given.

**EAST CENTER.**

East Center, March 22.—Chas. Crall and Ed. Kosar spent Tuesday and Wednesday in Madison at the thresherman's convention. They report a large crowd and great interest shown.

Miss Mary Fisher is home from high school with the grippe.

The young people's entertainment at Footville was the finest given in a long time and they report the receipts at fifty dollars. A number from our vicinity took part.

Newspapers to friends here of the sudden death at Beloit of Harry Howe. Notice of the funeral will be given later.

Many from this vicinity attended the earthly end held by L. U. Fisher in Janesville, Saturday.

Chas. Brown has been confined to the house for several days with the grippe.

W. H. Cory of Footville was seen on our streets recently.

George Yeomans is entertaining the grippe.

Numerous robins and spring birds are seen; also many wild geese.

Miss Mary Rothery has returned to Shoshone after a week's vacation at

Three-Button Novelty Sack, No. 557

**INDIANA MAN POISON VICTIM.**

Cincinnati, Mar. 22.—W. H. McAllister, a coal merchant of Madison, Ind., died last night at the City hospital from morphine poisoning. In the room McAllister occupied was found a large envelope addressed to Mrs. W. H. McAllister, Madison, Ind. The envelope appeared to contain a document of some kind.

**ORGANIST DROPS DEAD IN CHURCH.**

St. Louis, Mar. 22.—Mrs. Georgia Wheeler, organist at the Gibson Heights Presbyterian church, dropped dead yesterday as she entered the organ loft to play the first hymn of the morning services. The congregation was dismissed.

**ALLEGED BANK SNEAKS ARRESTED.**

Cincinnati, Mar. 22.—George Willard and George Carson, said to be notorious bank sneaks and pickpockets, were arrested here Saturday night.

H. H. PLISS,

Business Mgr.

Subscribed and sworn to before me this 2nd day of March, 1909.

CHARLES P. MILLIER,

(Seal) Notary Public.

My commission expires July 14, 1909.

PROPER STEPS.

In filing his formal complaint demanding that the common council revoke the license of two saloon proprietors who have violated the laws, City Attorney Maxfield took a step in the right direction. It is high time that the saloons of Janesville be disciplined and let the saloonkeepers and the brewery agents who control them can not do it the civic law must be invoked.

This talk about reforming the retail liquor trade on the part of the brewer has been apparently all talk and the disreputable saloons continue to exist as long as they pay tribute to the breweries. The two in question have been perhaps the most notorious in the city for some time past, but there are others, just as flagrant violators of the law, who have thus far escaped.

Saloon men as a class deplore the conditions which exist, but appear to be powerless to stop them by inner regulations of their fellow license-holders. The lesson Mr. Maxfield will teach the liquor element should bear results. His attitude in the matter is right and proper, and his action should be endorsed by citizens generally.

There seems to be no way for the council to do otherwise than revoke the licenses and they will doubtless do so at their next council session. The law is apparently plain relative to the matter having been thoroughly tested in the courts. According to legal opinion the council must act. Meantime it should serve as a lesson to other retail liquor dealers who openly flout the law, feeling immune from prosecution through some pull.

MANY COMMENTS.

There never was a tariff measure that came before congress for consideration that was not commented upon unfavorably by some particular interest. Some of the special features are bound to work an injury to one of the diversified interests of this country which stretches from the Atlantic to the Pacific and from the frozen north to the torrid south. The Payne bill, which is before congress, has many particular characteristics of the usual tariff measure, only, it is more radical than many in the past. The Wall Street Journal, spokesman for the interests of Capital, centered in the east, comments on the measure as follows:

"If the congressional program of tariff revision is carried out, it will result in the substitution of the German for the American system of tariffs, and will involve most thorough readjustment of international relations through treaty revisions, before trade movements between the United States and other countries of the world, can be expected to attain a normal measure of familiarity with the requirements of the new schedules.

The substitution of the proposed dual for the single tariff schedule will complicate immensely the technique of administration. Under the double duty system the entire importing world will for the time being be placed in a position of uncertainty as to where it stands. The maximum and the minimum rates provide for a difference so great in many cases as to make trade unprofitable if the higher or rather than the lower duty be applied to imports.

Another source of uncertainty in the transition is as to whether or not our exports are discriminated against in the countries to which our goods are shipped. There is here the widest latitude for disputes. These can

be settled by nothing less than a thorough inquiry into the fiscal administration and customs statutes of foreign countries. The question whether an exporting country is favoring any commodity by a bounty constitutes a condition upon which the maximum tariff would be imposed, but those who remember the difficulties involved in the question whether or not Russian beet sugar imported into the United States was favored by an export bounty, will be impressed by the enormous labor involved in arriving at a fair and just conclusion in the case of hundreds of articles.

Almost any duty on luxuries will be regarded as a personal affront by France.

**Heart to Heart Talks.**

By EDWIN A. NYE.

Copyright, 1909, by American Press Association.

HE SAVED A SOUL.

This is a tale that is true and worth the telling without comment.

If you can read it without being touched by the story, you are less easily moved than is the writer.

The reward which followed the missionary effort of David R. Kidd of Toronto, while unusual, is but incidental to the story itself.

In 1897 Mr. Kidd was a tea salesman, with headquarters at Chicago. He always carried with him New Testament.

One day of that year Mr. Kidd met Mary Burn, a girl who had fallen into evil ways.

"A series of negotiations must follow as corollaries of the maximum and the minimum schedule, likely to be both prolonged and difficult." The American interpretation of the most-favored-nation clause is such as to require specific agreement for the admission of practically every imported article at minimum tariff rates. Europe, on the contrary, regards this clause as entitling all nations to the minimum as soon as that rate is granted to any one of them.

Recognizing the possibilities in this wayward soul, he took from his pocket the Testament and turned to the story of Mary Magdalene. This story he read with all the force and feeling he possessed.

The girl pleaded with her to abandon her life of shame. He spoke to her in the name of her mother.

She promised that she would reform. She said she would go to Pittsburgh to her aunt and forever leave Chicago and her way of living.

That was in 1897. About a year ago Mr. Kidd received a letter from the girl, to whom he had given his card, saying she was dying with consumption and that she was on her way to Florida with her father.

Miss Burn died last July.

Her father returned to Australia and died a few months ago. He had heard from his daughter the story of her salvation.

And, much to his surprise, Mr. Kidd was notified that the Australian millionaire had added a codell to his will leaving "the former a handsome fortune."

To further show his gratitude the father had left in trust a quarter of a million dollars for the founding and maintenance of a home for fallen women.

A beautiful story of rescue.

And that is all—excepting this:

Of all the promises that stretch out to us from the spiritual world the greatest is that which requires him who saves a soul from moral death.

Harriman says he is not going to retire, but he has had no conference with Father Time relative to the matter.

Perhaps some of the local saloemen can see through a hole in a millstone better today than they did last Saturday.

The republican race for city clerk nomination has narrowed down to two men. One of them will, certainly win out.

Woman's Suffrage is to have another meeting at Madison and then the vote will be taken just as usual.

Up at Madison the question of County Option is to be the absorbing topic of conversation this week.

Yale is certain that Mr. Taft is all right and nothing can shake its opinion in this matter either.

**WANTS HER LETTER PUBLISHED**

For Benefit of Women who Suffer from Female Ills

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women I felt sure it would help me and I must say it did help me wonderfully. My pain all left me, I grew stronger, and within three months I was a perfectly well woman."

"I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. JOHN G. MOLDAN, 2116 Second St., North, Minneapolis, Minn.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

**Breaks in the Monotony.**  
Sympathies and antipathies are merely matters of temperament—an other of nature's ingenious little contrivances for keeping us alive by keeping us on the alert.

**Dirt in Chicago.**  
Experiments have shown that the Chicago air 300 feet above the street contains in a year 7,028 pounds of dirt an acre, or, three times as much as London air.—London Globe.

**COFFEE AT THE TEA SHOP**

An entire luncheon is often judged by the coffee served. That is why we take particular pains with our coffee. It has the aroma and flavor of home. And if you like it well enough to enjoy a second cup, it is yours for the asking. Home cooking is our feature, and you will find our entire service to your liking.

**FEW CONTESTS AT  
POLS TOMORROW**

REPUBLICAN CONTEST FOR MAY-  
OR MOST INTERESTING FIGHT.

**SKAVLEM HAS WITHDRAWN**

Announces He Does Not Desire City  
Clerk Nomination—Democrats  
Have Contests in Second  
and Fourth Wards.

With no democratic ward tickets in the first and third wards and no republican ward tickets in the fourth and fifth, the interest in tomorrow's battle of the ballots centers in the republican nominations for Mayor and City Clerk.

Louis N. Skavlem, who has been one of the most prominent of the candidates for city clerk to succeed Arthur Badger, late yesterday afternoon decided to withdraw from the contest and go into business and his announcement has upset the political dope of other candidates.

Skavlem's withdrawal leaves Cummins and Kennedy the two remaining republican candidates and the fight promises to be a most merry one. Frank L. Smith, the democratic aspirant for the office, has no opposition, as the winner of the Cummins-Kennedy fight will give Smith for his opponent at election.

Just which one of the two will run out is a question as both have been putting in some hard work in the past few days and many of Skavlem's adherents will go to each of them, dividing his strength about equally. The result will be known early tomorrow evening, as it is not thought it will be a hard vote to count, owing to the small number of contests for the half-clerk to count.

The interesting contest will be between Richardson and Carlo. It has been figured out with no contests in the first and third wards to attract the voters to the polls the election will be turned by the democratic votes although this is a problem as the second has a bitter aldermanic fight on, as has the fourth, which will tend to keep democrats in their own party ranks.

Richardson has already served as Mayor and is well known to the voters of the city, while Mr. Carlo has served as a member of the county board from the first ward and is at present Alderman from this ward. Both men have been prominent in politics for many years in the city.

John C. Nichols is the democratic candidate for Mayor, having no opposition, and will receive the nomination, having for his opponent Richardson or Carlo. The real contest of the election coming in the campaign which will follow the primaries tomorrow, which is expected to be warm enough to suit the most sanguine ward politician.

In the first ward Alderman Clark seeks renomination without opposition. John F. Spoon has no opposition for supervisor and James Shearer is running for school commissioner or without opposition, all being republicans. The voting place for the ward is in the basement of the city hall.

In the second ward James W. Scott candidate for alderman and Marshall P. Richardson for supervisor on the republican ticket, and John D. O'Hara, present alderman, and Edward Connell, a former alderman, both seek the democratic nomination for alderman. The voting place for the second is at the corner of Fourth avenue and North Main street.

In the third ward Harry W. Brown, present alderman, seeks renomination for the long term and George F. Klimball for one year to fill the place made vacant by Alderman Watt's resignation sometime ago. Joseph L. Bear is candidate for supervisor and Samuel M. Smith for school commissioner, all being republicans, with no democratic opposition. The city voting booth is on Racine street in the third ward.

In the fourth ward there is no republican ticket, Samuel Grundy, Albert F. Knuth and William Relifield, present alderman, seek the democratic nomination. Frank M. Britt and Joseph A. Denning both seek the supervisor nomination. The voter will be cast in E. J. Howland's blacksmith shop, near Dr. Dill's mill, in this ward.

In the fifth J. J. Dulin seeks renomination as alderman. Edward Rutherford as supervisor and James M. Thayer as school commissioner, all democrats, with no opposition on the republican ticket.

CURRENT ITEMS.

F. & A. M.: Regular communication of Janesville Lodge No. 66, F. & A. M., at Masonic Temple at 7:30 tonight. Work in M. M. degree. Refreshments. Visiting brethren invited.

Social Club Auxiliary: All members of the Social Club Auxiliary or the Congregational church are requested to meet in the parlors of the church at three o'clock Tuesday afternoon to discuss important business matters.

Naturalization Petition: Night Forman Henry Perkins of the St. Paul roundhouse today filed his first naturalization papers with the clerk of court. Mr. Perkins is a native of London, England.

New Commissioner Named: Judge Grinnell was here from Jefferson for two hours this morning, and gave judgment of foreclosure in the action of Charles W. Smith vs. Mary E. Riley, et al. Henry Johnson of Edgerton having declined to serve on the commission of appraisal in the condemnation proceedings of the D. L. & I. & Interurban Ry. Co. vs. Floyd Murdock, et al. Andrew Johnson of Edgerton was appointed in his place. The commissioners are to meet on April 12 at 2 p.m. The Judge left at noon for Monroe where he will hear 34 naturalization petitions. He does not expect to be here again this week.

Theft from Granary: Ten bags of oats were last week stolen from Frank Albright's granary in the town of Rock. Mr. Albright has lived in that locality for 17 years and although he never kept his granary locked, this is the first time anything has ever been taken there by thieves.

Meeting Postponed: The next meeting of the Civic club of the Baptist church has been postponed from March 23d to 30th.

Civic Club Will Sing: Tuesday morning at half-past eleven at the high school the members of the Lawrence

College Glee Club will render several numbers before the high school. One of the members of the club, Stewart Richards, is an alumnus of the school.

**EXHIBIT AT LIBRARY  
ENDED ON SATURDAY**

Charts and Models Go to Watertown to Be Shown There—Demonstration Fairly Successful.

Saturday evening the exhibit of the Wisconsin Anti-Tuberculosis Association, which the extension division of the University is sending through the state, was closed and the charts and models which are shown were packed up and shipped to Watertown this morning.

The attendance during the week has been very good but not extraordinary. The crowds which have attended have not been large but those who have come have listened to the talks and have become interested in the subject. The purpose of the exhibits and talks is to awaken the interest of the people of each city, so that they will start a crusade in their own town against the White Plague.

In speaking of what had been accomplished in this city, Mr. W. L. Oliver said: "I did not reach some of those living outside of the town as I had hoped, but there were many in the city who have become interested in the fight against tuberculosis and who will take up the work. The crowds were not exceptional."

"What you want in the city now is an active organization or to have some of the clubs take it up and push the work forward."

"Another thing that is much needed is a milk ordinance. Milwaukee, Winona, Monroe and other cities have them, and milk is being sent from here to them. If you don't get that ordinance the men they return will be dumped into Janesville. All the milk that cannot be sold in those places will be shipped here to be sold here."

"I understand that a milk ordinance has been prepared, but has not been introduced in your council meeting. It should be brought up and passed immediately."

**SALOONS MUST BE  
CLOSED TOMORROW**

Tomorrow being election day, saloons must remain closed from 6 a.m. until the polls close at 7 p.m. as required by law.

GEORGE M. APPLBY,  
Chief of Police.

**ROCKFORD FAMILY ANXIOUS  
ABOUT OTTO ANDERSON WHO  
WAS FINED HERE FRIDAY**

Supposed to Have Had \$1,200 on His Person—Cash Had Dwindled to \$323 When Arrested Here.

In the first ward Alderman Clark seeks renomination without opposition. John F. Spoon has no opposition in the local municipal court last Friday morning, were very anxious Saturday evening regarding his whereabouts. Police Sergeant Sully of the Forest City called up Chief Applby by telephone and stated among other things that Anderson had borrowed \$1,200 with which to pay for a home he had purchased and was supposed to have had this money in his person at the time he was last seen in the Forest City. He had \$323 in cash and a return ticket to Rockford on his person at the time he was arrested. Upon being released he promised to go back to his home town at once but it is believed that he got no further than Beloit that he got no further than Beloit.

**HEAD WAS BADLY CUT  
IN FALL FROM CHAIR**

Hiram York of Footville Was Injured in a Peculiar Manner at John Flanery's Saloon.

Overturning by a fainting spell, Hiram York of Footville fell from his chair in John Flanery's saloon at 28 West Milwaukee street about six o'clock Saturday evening and his head struck against the iron braces of the table. There was a large, ugly-looking scalp wound when Dr. T. W. Nuzum arrived on the scene and the man was so benumbed by the effects of the wound or liquor that it was impossible to ascertain the full extent of his injuries. His loyal friends are as numerous as the steeds he has prepared for useful or brilliant careers.

It is related that even upon a tip Mr. Head quit the horse-business and without any previous experience, undertook to raise 18 acres of tobacco. During this period, in his characteristic way, he devoted his entire attention to the task. In hand, reading not a single line of the horse news in newspaper and magazine. As the time for the harvest approached it became evident that he was to be one of the finest crops in that section of the country. But the night before the day set for the cutting the dreaded halld-storm got in its work. The following morning the unhappy grower took one look at the scene of devastation wrought in his field of golden promise and fled to the city. Nor did he ever return to make any disposition of the remnants of his banner crop, or even look the proposition over again. It was a case of "back to the old love," then and over after.

**Notice**

There will be a republican caucus in Holbrook's hall at Lima on Tuesday, March 30, 1909, at 2 p.m. to nominate town officers and transact any other business which may come before the caucus.

C. A. HUNT,

Chairman Town Com.

MONEY CAN BUY NOTHING BUT THE BEST CLOTHES HERE

All goods sold under the Ziegler guarantee.

Your money back if you are not satisfied.

**And The Annual March Clearance Sale of Furniture**

**Continues, and Will for Nine Days More**

Get busy, for \$10.00 in cash means \$15.00 to \$20.00 worth of goods during this entire month. Such a saving should be given serious thought, and the money laid aside for furniture this year, spent where you get the greatest value. We make our March Sales a great money saver, and if you will call, we will prove it by our bargains. We are now overstocked on Couches and that means more than we have room for. We have cut the prices on them like on all other goods, and offer any value covered couch in stock at \$12.00 each.

That has been our March sale price for years, and each year becomes a greater bargain, as the cost to manufacture couches is continually on the increase. These couches are all steel constructed, well made and well finished, and guaranteed to give entire satisfaction. The covers are of the best velvets, in many patterns and shades. See them, buy them, and save money. Watch our ads, and see the goods.

A curtain that is a combination of fine workmanship and fine material, with a plain and check scrim center, with 9 in. filet net border, with a fine hemstitching set back two inches from the border, also filet border with filet insertion. Price \$5 and \$6 per pair.

## RIPPLES OF MIRTH

Professor Daubo and His Realistic Painting.

And Now the Poet.

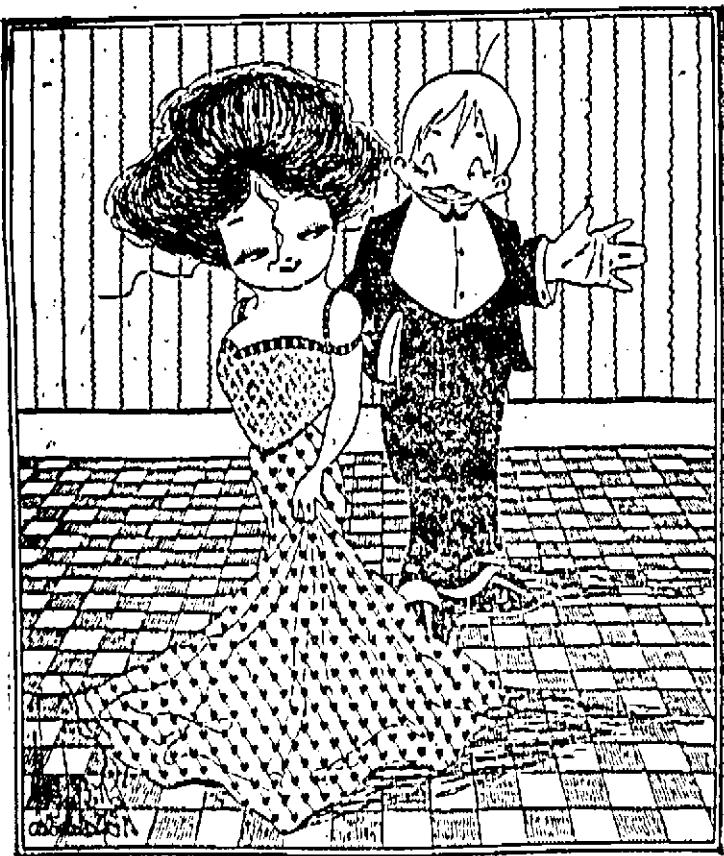

SENATORIAL POSSIBILITIES IN ILLINOIS TO SUCCEED SENATOR ALBERT J. HOPKINS.

**SHE WAS PRACTICAL.**  
She—Yes, the gentle spring is the season I particularly adore. Oh, the air, the sunshine, the busy birds! Where do you find such tender greens and whites as the spring verdure discloses to us?  
He—if you really wish for an answer, I think you can find them in a well-made salad.

Springfield, Ill.—The crisis in the senatorial situation in Illinois is due this week. The deadlock which has tied up the result so long is to be broken. Senator Hopkins, who at present leads in number of votes, is positive he can win to his side enough to return him to the upper house of congress. Should he fail, and there are many who say he will, E. D. Shultz, the present speaker of the Illinois house, is a likely winner.

Governor Denoon has maintained from the start a friendly attitude toward Senator Hopkins, but should Hopkins weaken so far as to be out of the race, it is thought the governor might reconsider his decision and run as a dark horse. His friends have urged this step from the start of the deadlock and predict that if he does run he will strongly backed, and can get the lead from the present senator.

**TWO REASONS.**  
Mrs. Acker—You really ought to let me get enough of that spring material to make me a new dress.  
Mr. Acker—Why?  
Mrs. Acker—Well, it's reduced to only 80 cents.  
Mr. Acker—And so is my bank account.

A FRIGHT.  
Violet—Yes, I saw her in that new spring gown of hers and she really behaved as if she was happy.  
Sylvian—Well?  
Violet—Well, it's remarkable how happy some people can be, no matter how they look.

Senor Don Francisco Leon de la Barra, new Mexican ambassador, just arrived in Washington, had the distinction of being the last foreign diplomat to present papers to President Roosevelt.

## A NEW ERA IN WALL DECORATION

You will be more than pleasantly surprised with our 1909 line of WALL PAPERS. The matched Cretonnes and Taffeta draperies in exclusive pattern, the upper thirds, the new crowns, the new ideas in Tapestries, the nursery and landscape friezes. Fine French English and Japanese Wall hangings, all are beautiful.

The papers this year show more style and originality than ever before. Every convenience and courtesy is shown to our patrons and we hope to make your visit pleasant.

We can serve you better now than if you wait a month.

Canned.  
There never was any boggart of soda in the canned things they used to put up when you were back on the farm. But, then, for that matter, it would never keep either unless mother hid it somewhere so the children couldn't find it.—Indianapolis News.

Point for Educators.  
That of which we learn too much and too prematurely in our childhood we will surely not know anything about later on, even in our old age; the man who likes thoroughbreds in the end becomes a soplist from his youthful errors.—Kant.

Going south and east from the orchards it is uphill for 20 to 25 miles and is a great wheat country. Much of it, a prairie country, does not need irrigating for farming. When about 20 to 25 miles you come to the foot of the mountains. There is where they have the timber and lots of saw mills. Southeast and north, between here and the mountains, it is not all prairie, lots of small streams of water and gulches, and between these gulches are farming lands and stock ranches, and much of it is awful rough. There is some mining not far from here for gold, silver and copper. There are great resources in this country tributary to Lewiston, and the people here tell me that it is sure to grow. During this last summer and at the present time there is but very little building and improving. It is plain to be seen that this has had its boom and has got to get over that before it will grow much.

We live toward the east end of the city in the valley, which is mostly a residence part of the valley except Main street, which is one block north of us. We have a one-story five-room modern house with water, sewage and bath in the house. We pay \$12 per month and our landlord pays water rent. Our house is plastered. When I was looking for a house I was shown many vacant houses. Some of them were well enough located and looked all right, but on examining them found them not to be plastered. So I said to the agent it would only mean to move again to take one of those houses. He asked why so, told him Mrs. Taylor and her husband could not live in a good house and she would propose to move and let the husband stay.

Well, I want to say when the boom was on everything that could be lived in would rent at a good price, so they made them cheap to rent. Our house has rented for \$16 per month three to five years ago. At the present time house rent is about like Janesville and other middle west cities, and residence lots are less than they were, but are a good price yet. But business lots along Main street and there are a good many vacant ones, would surprise anyone who comes here and asks the price. I don't know of any being sold; except for a new union depot, a passenger depot.

By the way, the depot is just finished and a nice one too. The ground is to go at it, about 140 or 150 by 300 feet, and lies between Main street and the railroad track, and is well out of the business portion of the town, opposite the courthouse. The price paid was \$30,000 for the ground and nothing on it. Some other sights were offered to the railroad company farther out along the track by some of the rich holders of real estate at \$50,000 to \$60,000. When a price is named along Main street for business lots, which is owned by a few rich people, an eastern businessman does not ask the second time. He is satisfied that to be rich is only to have a few feet of vacant land along Main street in Lewiston.

The combine harvester cuts 16 feet or 18 feet of a swath (small and large size). The grain is cut no high as to get all the heads, threshed and sacked and thrown off on the ground, gathered and piled up and when they get around to it it is hauled to market—just left piled up without covering in the field until harvest is over. Many wheat ranches don't use headers, and haul to the machine and thresh, or thresh and then thresh.

The smaller farmers use twin binders and some are not so small either, when they use five or six binders.

There is considerable timothy hay marketed here, but most of the hay is wheat-hay or oat-hay, which is cut a little green and generally bound. It makes good feed. Also some alfalfa, prices are now: Timothy, \$10 per ton; wheat hay, \$12 per ton; alfalfa, \$12 per ton. Wheat hay is mostly used for feed on the farms.

The business part of Lewiston is the lowest ground near to the river and is very narrow at lower or west end of town. The upper or east end is wide. Next to the business portion on the south there is a bluff perhaps 100 feet high and about as steep as it can be and not fall down. On the top of this bluff is a fine residence portion which is almost level, about 2½ miles. This is where the normal school, high school, church, and good residences are. There are also many homes in the upper or east end in the valley.

As we go south 2½ or 3 miles we come to another sudden rise of ground about one-quarter of a mile high, which is a large flat and this lies where the Lewiston irrigated orchards are located, which is owned by a company. They brought the water from a lake about 8 miles away, in ditches and pipes from upon a mountain.

We feel that we have located in a good country. It is a good farming country, a timber country not far away; a country of mountains with gold, silver, copper and other minerals in them, and a good stock country, and now grow the finest kind of peaches, apples, pears and in fact all kinds of fruit in irrigated parts.

We very much like the people here. There are many eastern and middle-west people, and as a rule are very sociable and good American citizens. But not all just that way, as one of

DOCTOR SAID

Much Sickness Caused by Coffee

Drinking.

It is wise to use care in selection of your table beverages.

The experience of several ill, families proves this and one of them is a very interesting story.

"We were induced to quit coffee about eight years ago because of its injurious effects. The doctor advised us to stop it entirely and we began to use Postum.

"While we drank coffee we had headache, sleeplessness, stomach trouble, palpitation of the heart, etc. We have found no injurious effects from Postum, and are clear of all the old coffee troubles. It has a fine flavor, a delicious flavor, and we feel free to drink it all we wish of it.

"My brother's family has used Postum for eight years, and has been benefited as we have. A Swedish family, neighbors, used to drink coffee for years but finding it harmful, have quit and now use Postum.

"A number of other families we know here who were habitual coffee drinkers, with the usual results, have now taken up Postum. The doctors here say much sickness is caused by drinking coffee.

"Some of them did not like Postum at first, but when we showed them how to make it dark and rich, according to directions on pckg., they liked it better than coffee, and it agrees with them."

None given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pks. "There's a Religion."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

and we the particulars free, or let us know

our old friends and his wife from west Grant county, Wisconsin, in fact the only people who we were acquainted with before we came—Daniel Needham, by name—has been county attorney the past four years. They tell us of the wonderful graft and stealing going on around here—horses, cattle, sheep and timber—a common thing. Not long ago three fellows drove in several carts loaded with sheep from the ranch and came near getting them on the cars. They caught one of the three and convicted him.

Mr. Needham says there are organized bands all over the western country and it is pretty hard to recover stolen property or to catch the thief.

Of course, we do not see any of these folks—just read and hear them talked of. We came here mostly on account of the mild climate and think we will like it very much. The people tell us we have had the coldest weather and most snow since '83 and '84, but is mild compared with Wisconsin. I came here in August and it was the hottest weather I ever saw. When the sun was shining, everybody worked out in the sun just the same and no one struck sick, but when the sun was down it soon got cold, very cool; along toward morning we want two blankets. No trouble about it being too hot to sleep, and no wind or rain for months; every day clear and hot in the sun, but no soon as you get in the shade you feel much cooler. People or horses do not sweat here like in Wisconsin. The air is dry—more like a furnace heat—and I am surprised how well I feel in so hot weather.

Mrs. Taylor came the 29th of September and we have passed the time of fall and winter so far happily and pleasantly. We have not gone out much and very few came in, so we read, write to our friends and visit, and are very well satisfied here so far, and have had as much shop business as I could expect, and if any of our friends come this way be sure to stop with us.

M. D. TAYLOR NOW MAKES HIS HOME IN LEWISTON, IDAHO.

IS A WONDERFUL COUNTRY

Gives Interesting Pen Picture of the Town and Surrounding Country.

M. D. Taylor, a former resident of Janesville, now living in Lewiston, Idaho, where he has a large machine shop, writes the following interesting letter to the Gazette of the west and particularly of Idaho:

Editor, Gazette, Janesville, Wis.

Dear Sirs—Knowing our friends in Janesville would like to read a little concerning Idaho, we write some about it as we see it. The city of Lewiston is located at the junction of the Snake and Clearwater rivers, the Snake river much the largest. The Clearwater is about as large as Rock river at Sterling, Ill. The city is on the south side of Clearwater river and has about 8,000 people. On the north side of the Clearwater river there are great hills all about of an even height, all of a quarter of a mile high and good and steep without rocks, but soil, with nothing green on them in the summer and not a bush or sprout to be seen. On the top of these hills north of Lewiston is the beginning of the great Palouse country which is about 200 miles long and is said to be the greatest wheat country in the United States. A man who had run a threshing machine in that country for several years said to me that in a fairly good year the wheat that was fallowed would yield 60 to 80 bushels per acre and the very best 70 bushels per acre. I said to him, "Seventy bushels is a lot of wheat to grow on an acre." "That is true," he said, "but they get it very often." The large wheat ranches here (and the country is full of them) take a crop of wheat off this year; next year they do not plant anything on that ground, but in May or June next they plow that ground, and as it is very dry in July and August they harrow and cultivate that ground enough to keep it entirely free from weeds or anything else to grow and have no crop of any kind on it. The next spring they sow it to barley; take off the barley, plow and sow to wheat; thus having two crops in three years off the land. Others rest the ground every other year and raise wheat only. But do all the plowing in the summer and harrow during summer to keep all weeds and vegetation out, thus having the ground all ready to sow fall wheat as soon as harvest is over. In spending about raising wheat on a large scale, one ranch 8 or 9 miles south of here marketed this year one hundred thousand bushels of wheat. The harvesting on several of those wheat ranches near here is done with the big combines, mostly drawn with 28 to 36 horses, some with large traction engines. Those that have engines use the engine for plowing also.

The combine harvester cuts 16 feet or 18 feet of a swath (small and large size). The grain is cut no high as to get all the heads, threshed and sacked and thrown off on the ground, gathered and piled up and when they get around to it it is hauled to market—just left piled up without covering in the field until harvest is over. Many wheat ranches don't use headers, and haul to the machine and thresh, or thresh and then thresh.

There is considerable timothy hay marketed here, but most of the hay is wheat-hay or oat-hay, which is cut a little green and generally bound. It makes good feed. Also some alfalfa, prices are now: Timothy, \$10 per ton; wheat hay, \$12 per ton; alfalfa, \$12 per ton. Wheat hay is mostly used for feed on the farms.

MISS IDA WAYNE, DAUGHTER OF THE CONSUL GENERAL, TO ENGLAND.

Washington.—Among the outside guests present at the Taft inauguration was Miss Ida Wayne, daughter of the consul general to Eng at the Sherman hotel. Miss Wayne is very beautiful and talented, and grand. Many tea, luncheons and for her during the last few days.

**DR. SCHALENBERGER.**  
The regular and reliable Chicago Specialist, will be at JANESVILLE, WIS., MYERS HOTEL, TUESDAY, APRIL 6, 1909. (One day only), and return once every 28 days. Office hours from 8 a. m. to 5:30 p. m.

JOSEPH PETROSI NI OF NEW YORK POLICE DEPARTMENT, ASSASSINATED IN ITALY.

New York.—Lieut. Joseph Petrosini, who has done more to stamp out the Black Hand in America than any other man, was shot and instantly killed in Palermo, Sicily, last Friday night. He was on a mission to Italy, his native home, to do his part in keeping out of America the criminal Italians. Petrosini was sent there under the direction of Police Commissioner Bligh of New York to establish bureaus, with a fund of \$10,000 raised by public subscription in this country, by means of which bureaus it was to be made possible to apprehend any criminals stilling from Italy for America.

Diseases of Women.—Of all the classes of disorder which particularly require the services of a specialist are known as the diseases of women. To the treatment of these distressing diseases Dr. Schallenberger has long given special attention and has restored vigorous health and vitality to women who have suffered for years and were unable to obtain relief elsewhere.

WONDERFUL CURES

Perfected in old cases which have been neglected or unsuccessfully treated. No extraction or failure. He undertakes no insurance cases but one thousand given up to date.

Consultation Free and Confidential.

Address,

**DR. W. E. SCHALENBERGER,**

## The LAST VOYAGE of the DONNA ISABEL

By Randall Parrish  
*Author of "Bob Hampton of "Flavor," etc.*

Illustrations by Dearborn Melville

Copyright ©, G. McIlroy & Co., 1909.

"Lay down" from "Ghosts."

I sprang over to consult the binoculars, and then cast one swift, comprehending glance at the thickening gloom in the southwest. Beyond doubt the change had come:

"Give her two more points north, wheelman; keep her head nor'east by nor'—steady so, Mr. De Nova, send another man up here to the wheel. All hands now; stow everything; fall on to those gaskets lively, my lads; we're in for a blow, and a run for our lives!"

To my amazement scarcely a man among them stirred, the eyes of the majority turning toward Anderson. Evidently there was an understanding between them; they intended to revolt and had chosen him their leader. He stood just in front of the forecastle, a lumping big figure in his heavy clothes, his coarse face and ugly jaw showing beneath a fur cap.

"What yer turnin' north for in such a hurry, Mr. Stephens?" he growled, hoarsely. "It's not by vote of the crew, an' we're the ones that got them say of it on this voyage. We're for keepin' along this line o' latitude for a day or so anyhow. Tuttle might 'a' got his fingers tangled an' missed a few leagues. Anyhow, we want the lady to give us her reckoning first."

I felt the hot blood leap to my face, and my teeth clenched as I leaned over the rail gazing down at him.

"Lady," I said, striving to master myself. "I've put you exactly where I promised I would; I've shown you all that was here. You can see for yourselves what will happen if we hold on any longer. The wind has swept around; it is going to bring that whole pack of ice down on us. We've got to run for it, or be crushed. Now what I want to know is, are you with me, or with Bill Anderson?"

They held off muttering, yet casting uneasy glances over the rail. Anderson snarped angrily on the deck.

"Eh, to hell with yer fine words," he said, grimly. "What if the wind has changed a bit? Can't we beat off the floe under atom the same as we did before? We're sailors-men, and not afraid of a rough sea. For one, I'm damned if I leave that gold to rot here without huntin' for it."

Words were clearly useless, and I ripped back my heavy coat, dragging off my gloves, all patience exhausted.

"Come on, Do Nova," I exclaimed.

"You've got sense enough to realize what this means."

I was over the rail with a leap, fronting them on the deck. Almost to my surprise the crew landed beside me, and without a word we struck out at the heads in our front. It was a fierce mix-up for a minute, yet only a man or two stood with Anderson, the suddenness of our assault taking all the fight out of most of them. I struck Big Bill twice squarely in the face, driving him back against the steps leading to the forecastle deck; over these he fell sprawling, his head thumping the plank. The next instant I had Do Nova's antagonists in the rear, and together we laid them out against the rail, and none too gently. The mate's smile had become ugly, and he would have leaped into the rest of the bunch, but I caught his arm.

"They've had enough," I said, breathing hard. "Get back on the bridge, Do Nova. Now, you lads, get busy. If one of you soldiers, or talk back to me again, he'll go to his bunk for the rest of this voyage. Get up, Anderson, and stop that growling! You fellows may as well learn first as last that I am commanding the Sea Queen, and that we are homeward bound."

Within the space of five minutes I had the whole gang at it, a profane, shuffling crew enough, yet carrying out my orders after a fashion, and sufficiently cowed to be obedient. At last I dispatched the starboard watch below, and, leaving Do Nova in charge of the bridge, started back to the companion. To my surprise Lady Darlington, muffled to the eyes, still stood, half protected, in the open door of the chart-house.

"What in the world are you doing here in all this snow and blizzard?"

She was silent, her eyes fixed on me.

"I'm sorry, but I can't help it," she said, with a faint smile.

"I'm sorry, but I can't help it," she said, with a faint smile.

"I'm sorry, but I can't help it," she said, with a faint smile.

"I'm sorry, but I can't help it," she said, with a faint smile

# Kodol "PREVENTS" HEARTBURN BY Curing Indigestion

"Heartburn," sour stomach, belching of gas and acid, bitter fluid—all are indications of indigestion. And indigestion is pretty sure to be dyspepsia if neglected. Then dyspepsia leads to very dangerous diseases. There are so many things which bring on indigestion—such as rich, greasy foods, eating without properly chewing the food, overloading one's stomach, eating when exhausted, going to bed too soon after eating, etc. Most any of these will bring on indigestion—and then Kodol is required to restore the stomach to good health again. Kodol corrects the effects of wrong eating by digesting, for a time, all the food in your stomach, so that your stomach can get well. Suppose you give Kodol a trial when you need it, and see what it will do for you. Read our guarantee.

**Our Guarantee.** Get a dollar bottle of Kodol. If the bottle is not full when you are not satisfied, the druggist will give you another. Don't hesitate any longer; write to Kodol on these terms. The dollar bottle contains 2½ times as much as the five bottle. Kodol is prepared in the laboratories of E. C. DAUWELL & CO., Chicago.

**SOLD BY J. P. BAKER AND OTHER DRUGGISTS.**

## 35-HORSES FOR SALE-35

We have just received a carload of horses from Minnesota. You fellows looking for a young farm pair or a nice driver come in. These are mostly 3 and 4 year olds of the right sort. Call at the Union House barn and see these horses.

All horses shown in harness and guaranteed as represented.

**W. E. SHOEMAKER & SON.**

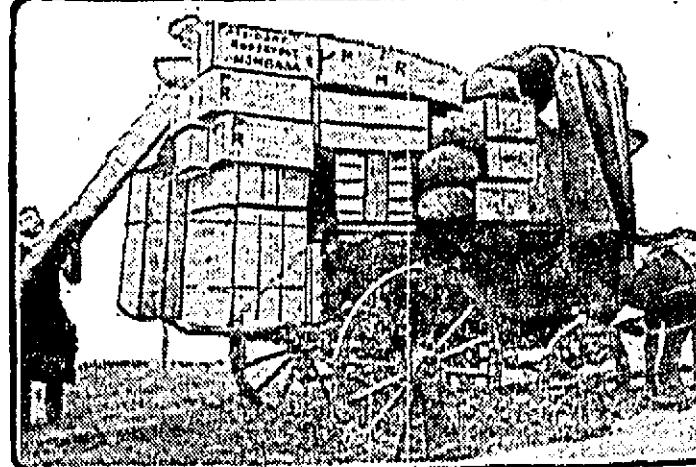

**Advice Worth Heeding.**  
Let us labor to make the heart larger as we become older, as the spreading oak gives more shelter, —Richard Jeffries.

**Not for Tommy!**  
"The Schoolmasters' club!" exclaimed Tommy, reading from a newspaper. "My goodness gracious! I shouldn't like to go to his school!"

**THEATRE**  
**"Isle of Spice"**  
Apart from its legitimate claims to popularity because of its catchy songs and delightful music, H. H. Frazee's "Isle of Spice" which comes to the Myers theatre Tuesday, March 23, matinée and evening, is a production that from a scenic viewpoint has seldom been equalled and never surpassed in the history of the American stage. Theatre-goers who are most exacting in their demands for all that modern stage mechanism has made possible, are unshaken in their praise of the lavish production Mr. Frazee.

**tion that from a scenic viewpoint has seldom been equalled and never surpassed in the history of the American stage. Theatre-goers who are most exacting in their demands for all that modern stage mechanism has made possible, are unshaken in their praise of the lavish production Mr. Frazee.**

**San Francisco, March.—Big Al Kaufman is getting ready to shake**

Ex-President Roosevelt's entire hunting equipment ready for the steamer which is to take it to Africa. The big boxes and bags are all plainly labeled—and you can see it in the picture if you look close—for "President Roosevelt, Mombasa." This gives some idea of the magnitude of the task involved in getting Teddy ready for his vacation. The wagon carries tents, guns, supplies and scientific apparatus.

**BIG AL KAUFMAN'S FIGHTING FACE.**

**San Francisco, March.—Big Al Kaufman is getting ready to shake**

the San Francisco dust from his moccasins and will depart for the east, where he has some theatrical engagements awaiting him. Big Al will show off a counter-tenor to Jim Jeffries and will mighty hurl defiance at the alfalfa grower.

Just what Kaufman will say is doubtful, but if he keeps on telling the public that he can lick Jeffries it is bound to irritate the big fellow, and the latter may take him on, just to see whether it would be a wise move to clamber through the ropes with Jack Johnson.

Whether Jeff pays heed to Kaufman's "calls" or not, it is a cliché that some of the public will take Al seriously. And for that matter, barring Jack Johnson, Kaufman has first claim on Jeff.

Whether he is a champion or not,

he is the closest approach to one in the heavyweight division outside of Johnson and Jeff.

Kaufman has a nice theatrical contract, but the chances are that he can get some ring work while in the east—he will get busy with the five-tonne gloves.

All Her Own Hair.  
It's a good thing that Shakespeare wrote King John several years ago. If Constance should proclaim upon the modern stage, "I am not mad; this hair I tear in mine," we can imagine the howl of derision that would break on the high assemblage of the gods.

**JOANNA:** Gold Medal Flour is real economy. **PAULINE:**

**IF YOU HAVE A CANCER**

and it is curable. I'll cure it to stay cured. I treat only external cancers and can tell to a certainty whether or not a case is curable before I undertake to cure it. However, if I take a case and there is a recurrence, I will agree to refund every cent paid me. I have treated many cases during my nineteen years of practice and in not a single case has there been a recurrence. Before you should take a single treatment I should want you to see what I have done for others who have placed their cases with me. Mr. Forrest of this city, says this after I had removed six cancers from his breast:

Dr. G. H. Webster, Janesville, Wis.

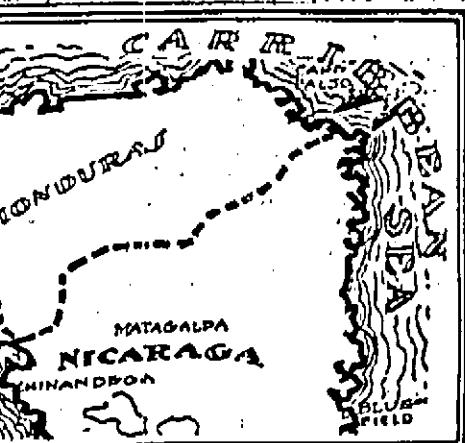

Dear Doctor—I want to give my name and help to all others who are suffering from the dread disease of cancer. The six cancers you removed from my breast, without the use of a knife, X-ray, or losing one drop of blood seems marvelous. But the killing in and healing up seems more marvelous to me. I would say to you—Don't keep your light under a bushel, but let people know what you can do, and that there is a cure for them if they will accept it. Money is no object when a cure can be had. Hoping you will aid others as you have me. I am respectfully, C. W. FOREST.

151 Racine St., Janesville, Wis.

I use no knife or X-Ray, my method is absolutely painless and does not cause any inconvenience whatever. You can go right on with your daily work without interference.

Write for a circular.

**G. H. Webster, M.D.**  
427 Hayes Blk. Janesville, Wis.

Map of Nicaragua and neighboring countries. President Santos J. Zelaya of Nicaragua at left and Dr. L. de la Barrera, Mexican ambassador, at right.

Washington.—What is to be done with the troublesome Central American states? The small republics apparently have not the capacity for self-government, at least not without a strong hand over them. The United States and Mexico have had many conferences over them during the past few weeks. The present Nicaraguan trouble may be the last straw, for the edict has gone out that Nicaragua and the others must maintain peace and show respect to the United States and Mexico. This respect has been sadly lacking toward both powers. The United States has dispatched gunboats to Nicaragua and Mexico stands ready to rush an army into the country at a moment's notice.

According to the story, the question of intervention in Central America has been discussed between Washington and Mexico City for some time, and the conclusion has been reached that annexation is the only solution of the problem of ending the periodical revolutions that have been the curse of the lithotomy republics.

As a result of this private understanding, which has not been placed on paper, it is said that the United States has agreed to let Mexico annex Guatemala and Honduras and Mexico has in turn given her assent to the annexation of Nicaragua and Salvador by the United States.
